SUMMARY

Undergraduate Computer Information Systems student in my last semester in the University Of Jordan. Passionate about full-stack web development and developing user-friendly, dynamic websites using the latest technologies, with hands-on experience in HTML, CSS, JavaScript, React, Node JS, Express JS, and databases.

With strong focus and commitment in delivering engaging and functional websites, possess great problem-solving skills, good teamwork, and eager to continuously learn new technologies and improve myself in the latest web development technologies.

PROJECTS

Movies Website project

https://github.com/Hassan-AbuGareeb/Movies-Website

[Preview website](#)

A website to view various movies and actors information.

- Implemented user interface using React.js and Tailwind for styling.
- Utilized TMDB API to pull and parse data on movies and actors and apply various filters to them.

EDUCATION

Full stack web development Bootcamp

Re:Coded

09/2023 - 01/2024 NYC (Remote)

- Completing a 4.5-month immersive web development Bootcamp, with 300+ hours of curricula and project-based learning.
- Technologies: HTML, CSS, JavaScript, React, Node JS, Express JS.
- Working with various development teams to create products across industries.

Bachelors in Computer Information Systems

University of Jordan

10/2020 - 6/2024 Amman, Jordan

GPA

3.71 / 4.0

SKILLS

Front-end

HTML

CSS

Javascript

React Js

Next js

Tailwind CSS

Redux

Bootstrap

Back-end

SQL

MySQL

NodeJS

JWT

MongoDB

Postman

Express JS

Development & Operations

command-line

version control (GIT)

Design Patterns

3D modeling

RESTful APIs

REST API testing

Docker

Node Package Manager

Soft skills

Strong communication

Problem-solving

Self-motivated

Adaptability/Flexibility

Quick learner

Attention to details

works well under pressure
